Use of Animal Tissues or Carcasses

The SUNY at Buffalo (UB) Institutional Animal Care and Use Committee (IACUC) oversees the use of animals in research conducted at the university and seeks to facilitate the sharing of animal tissues for research or training purposes when possible. In order to achieve this goal while ensuring appropriate use of these valuable resources, the IACUC requires documentation of planned procedures, handling, and eventual disposition of the tissues. If you meet the criteria outlined in the Use of Animal Tissues or Carcasses Policy, please complete all sections of this form and submit it to the IACUC (iacuc@research.buffalo.edu) for approval prior to the expected receipt of any animal tissues.

Name:

This is the individual who will be responsible for the tissues

Contact phone number:

Email address:

PI name:

Animal IACUC Protocol # (if applicable):

Source of material:

Species which tissue is derived from:

Tissue(s) being obtained:

Hazard exposure:
